

PROFESSIONAL STATEMENT:

My name is Emmanuella. I am a driven and self-motivated IT Analyst with a background in clinical healthcare and pharmaceutical industry; passionate about securing data and digital assets before hackers strike. Having completed the Google Cybersecurity Certification while currently pursuing Cybersecurity Diploma, I have garnered impeccable knowledge and skills in technical hardware and software troubleshooting, network architecture and data analytics, and hands-on experience with SIEM and IDS/IPS tools, systems configuration, active directory management, Linux administration, scripting and programming, cybersecurity frameworks including NIST, ISO/IEC 27001 and security standards and regulations such as PCI-DSS and GDPR. I absolutely enjoy working with technology and analyzing and solving complex problems.
